Thanks for reply, I am using XP Home Edition on a Compaq computer, I did make a mistake as I am using a CD-RW not CD ROM. Am trying to put work done on Excel onto CD. Have done this before, but suddenly won't let me. Hope I've given you enough info.

Cannot save my work onto a CD ROM because a message comes up saying--
You
do
not have access to the folder 'E:\' See your administrator for access to
this
folder --. I have checked to make sure I am the Computer Administrator and
I
am. Can you please help

You cannot save files onto a blank CD disk using a CD-ROM drive. A CD-ROM drive is Read Only and doesn't write. You need a DVD/CD-RW drive.

Please post back with what optical drive you really have, what type of blank media you are using, and with what program you are trying to burn a CD.
