Add or Remove – White Space

[http://www.kellys-korner-xp.com/xp\\_a.htm#ws](http://www.kellys-korner-xp.com/xp_a.htm#ws)

[[This is generally due to the DisplayIcon having a negative number. From here you can either remove the negative number or remove the last application listed:

Start/Run/Regedit:

HKEY\_LOCAL\_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\{ }

AutoCad Fix

[http://www.kellys-korner-xp.com/regs\\_edits/autocadaddremovefix.zip](http://www.kellys-korner-xp.com/regs_edits/autocadaddremovefix.zip)

Autodesk Land Desktop 3 Fix

[http://www.kellys-korner-xp.com/regs\\_edits/autodesk-landdesktop3-addremovefix.zip](http://www.kellys-korner-xp.com/regs_edits/autodesk-landdesktop3-addremovefix.zip)

===

I have AutoCAD LT 2000i. The white space in Add or Remove Programs usually shows up after the AutoCAD LT 2000i listing. If you want to tweak the registry...

HKEY\_LOCAL\_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\  
{5783F2D7-0065-0409-0000-0060B0CE6BBA}

Value Name: DisplayIcon

Value Type: REG\_SZ

Value Data: C:\Program Files\AutoCAD LT 2000i\aclt.exe,-1

Notice the aclt.exe,-1?? You can change it to read aclt.exe,1

Or you can run one of the fixes. I have both autocadaddremovefix.zip & autodesk-landdesktop3-addremovefix.zip. They both include icons. autocadaddremovefix.vbs is the one that works for me. It's easier to use the fix than changing the -1.

microsoft.public.windowsxp.perform\_maintain: Re: Add/Remove Programs data

I get the white space in Add or Remove Programs every time that I add or remove a program. It isn't always AutoCAD LT that has the white space after it, sometimes it's another program. At any rate, one of the fixes will work. Until the next time. ;-)

```
autocadaddremovefix.vbs adds an autocad.ico icon to the %systemroot%\web
folder. It also adds this to the registry >>
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\
{5783F2D7-0101-0409-0000-0060B0CE6BBA}
Value Name: DisplayIcon
Value Type: REG_EXPAND_SZ
Value Data: %systemroot%\web\autocad.ico
```

```
autodesk-landdesktop3-addremovefix.vbs adds an acad.ico icon to the
%systemroot%\web folder. It also adds this to the registry >>
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\
{5783F2D7-0138-0409-0000-0060B0CE6BBA}
Value Name: DisplayIcon
Value Type: REG_EXPAND_SZ
Value Data: %systemroot%\web\acad.ico
```

-----  
>From snowman...

AutoCAD 2002 is

```
HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows\CurrentVersion\Uninstall\
{5783F2D7-0101-0409-0000-0060B0CE6BBA}
```

--

Hope this helps. Let us know.
