uninstall the network card & reinstall it. otherwise (if it's not an external card) then load the ibm drivers for the network card again.

"Vin" <Vin@xxxxxxxxxxxxxxxxxxxxxxxxxxxx> wrote in message news:C1B1A381-DBE8-4D73-87F9-41968B78BEC3@xxxxxxxxxxxxxxxxxxxx

My Thinkpad laptop computer suddenly crashes and I have problems when I am booting up it shuts down and then I have to unpug remove the battery and power cord before I can get it to power up again .I checked the Advance Error Option Under Help and Support and noticed the following errors :

Monday, February 14, 2005 DCOM DCOM got error "%1084" attempting to start the service EventSystem with arguments "" in order to run the server: {1BE1F766-5536-11D1-B 726-00C04FB926AF}

Monday, February 14, 2005 DCOM DCOM got error "%1084" attempting to start the service netman with arguments "" in order to run the server: {BA126AE5-2166-11D1-B 1D0-00805FC1270E}

Monday, February 14, 2005 Service Control Manager The DHCP Client service depends on the NetBios over Tcip service which failed to start because of the following error: A device attached to the system is not functioning.

Monday, February 14, 2005 Service Control Manager The DNS Client service depends on the TCP/IP Protocol Driver service which failed to start because of the following error: A device attached to the system is not functioning.

Monday, February 14, 2005 Service Control Manager The TCP/IP NetBIOS Helper service depends on the AFD Networking Support Environment service which failed to start because of the following error: A device attached to the system is not functioning.

Monday, February 14, 2005 Service Control Manager The IPSEC Services service depends on the IPSEC driver service which failed to start because of the following error: A device attached to the system is not functioning.

Monday, February 14, 2005 Service Control Manager The following boot-start or system-start driver(s) failed to load: AFD Avg7Core Avg7RsW Avg7 RsXP CSMBATT Fips IBMTPCHK IPsec MRxSmb nbmkmd NetBIO S NetBT P3 RasAcid Rdbss T cpip TDOEM TPHKDRV

Monday, February 14, 2005 DCOM DCOM got error "%1084" attempting to start the service EventSystem with arguments "" in order to run the server: {1BE1F766-5536-11D1-B 726-00C04FB926AF}

Could you please tell me what I should do to rectify this problem . I

Re: Service Control Manager

recently reinstalled Windows XP using my recovery CD hoping that the problem would get resolved.

Thanks in advance for any help
