1 - I have 100's of these files in windows/docs & settings/local  
service/local settings/history/history.IE5  
& 2-I have dozens of THESE too. Both I think are filling up my computer  
and  
slowing it down....?!

1. Don't know
  2. These are uninstall folders for windows fixes. All they do is occupy  
disk space. Unless your disk needs the space, they cause no harm. However,  
if you do wish to delete them, copy them to a removable disk first. After  
all, you never know what the future may bring.
