I just wanted to let you two gentlemen know between doing what you said finally fix all my problems. Now all my back grounds work and I can right click on a picture and select show as background and it works just like it is supposed to. I don't know how to thank you for your time and expertised to help me fix this problem. My solution was to reformat my hard drive and do a clean install of XP and your solution was much easier. THANK YOU, THANK YOU, THANK YOU !!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Roy Cobbs
