A number of standard update and repair procedures disabled the Fax Monitor in the initial release of Windows XP. These problems were fixed in Service Pack 1. Make sure you apply SP1 if you notice this problem. The following may also apply:

http://service1.symantec.com/SUPPORT/nip.nsf/4a29389c214c78ea88256c75005f451a/713afacbd4135e0a88256c770
Error: "Rule Default Block Netspy Trojan Horse Matched" when you start the computer
