I don't have this printer, but your most likely chance of success is to download and install the most recent driver for XP from HP. See this link:

<http://h20000.www2.hp.com/bizsupport/TechSupport/DriverDownload.jsp?prodNameId=15005&lang=en&cc=us&pro>

What drivers are people utilizing with the HP LaserJet 5L on XP and what port settings are they using? I am trying to print with no luck utilizing my HP LaserJet 5L from a new Dell Dimension 9100 with Windows XP. Thanks
