In news:%235gZL7EHFHA.472@TK2MSFTNGP12.phx.gbl,
Nathan Sokalski <njsokalski@hotmail.com> had this to say:

> *I am trying to delete some files from my hard drive, and am receiving
> an Access denied error message. I am the only user of the computer
> and have administrator privileges (I have also tried signing in as
> Administrator, but received the same error). I also tried to delete
> the files from the command prompt, and received the same error. What
> can I do to give myself the necessary privileges to delete these
> files? (they are not system files) Any help would be appreciated.
> Thanks. --

Try this:

How to take ownership of a file or folder in Windows XP:

<http://support.microsoft.com/default.aspx?scid=kb:en-us:308421&sd=tech>

"My mind rebels at stagnation. Give me problems, give me work, give me the most abstruse cryptogram or the most intricate analysis, and I am in my own proper atmosphere. I can dispense then with artificial stimulants. But I abhor the dull routine of existence. I crave for mental exaltation." -- Sherlock Holmes
