Try the following:

Visit [http://www.belarc.com/free\\_download.html](http://www.belarc.com/free_download.html) and download the free Belarc Advisor. After running the program, look under the section titled "Software Licenses".

| I need a way for a user to run a program that will check the user's local pc  
| for installation and version of 3 applications:

- | 1. Outlook (all versions)
- | 2. Goldmine (all versions)
- | 3. ACT! (all versions)

| I would also need a way to determine the last launch date for each app.

| Can anyone help me?

| Thanks in advance.

| Phillip
