For a safe and secure way to simply grab files you could setup either a VPN or SSH server on the PC you want to get files from.

A free SSL-VPN solution, one that I use... You only need TCP Port 443 open on any firewall inbound.

<http://3sp.com/showSslExplorer.do>
<http://www.broadbandreports.com/forum/remark,13775231>

The SSH method... You only need TCP Port 22 open on any firewall inbound.

<http://sshwindows.sourceforge.net/>
<http://www.bitvise.com/tunnelier.html>
<http://winscp.sourceforge.net/eng/index.php>

How I do SSH...
