Ran the information as requested.

On the file that came from the office PC and was unaltered, when the command was entered for the file it returned the statement "Access Denied".

I ran the cmd again on a file that I had just taken ownership of (Microsoft Forum text.txt) and it returned the following:

```
"E:\000-SigmaPrint-Transfer\2do\00Tod*"
E:\000-SigmaPrint-Transfer\2do\00Today NT AUTHORITY\SYSTEM:F
BUILTIN\Administrators:F
```

```
E:\000-SigmaPrint-Transfer\2do\00Today\Microsoft Forum text.txt
DAVIDSP4\David Mirylees:R
NT
AUTHORITY\SYSTEM:F
```
