> I put Creator Owner with FC on the root of the directory and it didn't work. I then recreated the homedrive (just in case) and it still didn't work. The only way I could get it to complete the redirection to the newly created homedrive was to changes the share perms to Full.

As far as I know, it's recommended to let Windows handle the permissions on the folder−redirection shares itself. Anyway, I've got two links for you that describe, how to set up folder redirection just for the case you want to compare:

http://support.microsoft.com/?id=232692
http://support.microsoft.com/?id=274443

This may not exactly address your problem but could also be worth a look at:

http://support.microsoft.com/?id=321805

cheers,

Florian
