Hi

Florian provided great information. Hugo, let me know if you still have concerns, I'll glad to be of assistance.

Have a good day.

Best regards,

Vincent Xu

Howdy Hugo!

Hugo wrote:

Is it possible with GPO to configure a service to start automatically

when

the PC start ?

Yes. You saw "UserConf\Windows Settings\Security Settings\System Services\" ?

If you want to configure a services that is installed on a client system that doesn't exist on your server, you will need to download the GPMC (Group Policy Management Console) from Microsoft:
<http://www.microsoft.com/downloads/details.aspx?FamilyID=0a6d4c24-8cbd-4b35-9272-dd3cbfc81887&DisplayLang=en>

5-9272-dd3cbfc81887&DisplayLang=en

and edit the policy from the client.

cheers,

Florian
