Also, on the logon script drive mapping issue, check out this article:

<http://technet2.microsoft.com/WindowsVista/en/library/5ae8da2a-878e-48db-a3c1-4be6ac7cf7631033.mspx?mfr=tr>  
and read the section called, "Group Policy Scripts can fail due to User Account Control"

nope  
"Paul Dunn" wrote:

Did you get this issue solved?

Asynchronous Startup is deactivated?

CompConf\AdmTempl\System>Login  
"At startup and login ... always wait for the network"

But, sure, you need to wait until that GPO applies (90 minutes),  
or run gpupdate manually, otherwise you have the same problem,  
like the chicken and the egg ...
