Hi Josh :-)

- > *When I hit back on some site it goes to a Page Has*
- > *Expired page. This used to not do it. I tried looking*
- > *for the answer on Microsoft.com and the answer saying to*
- > *uncheck, "save encrypted pages to disk" but that did not*
- > *work as it was already uncheck. I also tried checking it*
- > *applying it and then unchecking it and that did not*
- > *work. What else should I try. Thanks*

Try the following programs and see if they help. Be sure to UPDATE the SpyBot and AdAware before running them, to be sure they have the latest definitions.

>

CWS shredder: Free

<http://tinyurl.com/2l9kl>

SpyBot Search & Destroy: Free

<http://download.com.com/3000-8022-10289035.html?tag=lst-0-2>

IMPORTANT:

Before trying to remove spyware, download a copy of LSPFIX from the URL below – some malware may kill your internet connection when it is removed, this program will enable you to regain your connection.

<http://www.cexx.org/lspfix.htm>

AdAware: Free

<http://www.lavasoftusa.com/support/download/>

Hope this helps.

Jan :)
