Hi,

This is probably being caused by third party programs such as spyware and parasites.

>From Control Panel> Internet Options> Advanced> uncheck "Enable third party browser extensions." That may allow IE to work.
You should re-enable browser extensions after the cleanup.

You might also be able to browse and download programs from the address bar of Windows Explorer.

Work through the solutions (CWShredder, Ad-aware, Spybot) at <http://mvps.org/winhelp2002/unwanted.htm> Also note the security tips on that page.

Additional information at:

The Parasite Fight <http://www.aumha.org/a/quickfix.htm>

More security tips at <http://www.aumha.org/a/parasite.htm>

Bugs, Glitches & Stuffups: <http://www.mvps.org/inetexplorer/Darnit.htm>

Hope this helps,
Don
