Hi,

This is possibly being caused by a third-party program (adware, spyware, parasite)

Work through the solutions (CWShredder, Ad-aware, Spybot) at <http://mvps.org/winhelp2002/unwanted.htm> Also note the security tips on that page.

Additional information at:

The Parasite Fight <http://www.aumha.org/a/quickfix.htm>

More security tips at <http://www.aumha.org/a/parasite.htm>

Hope this helps,

Don
