A real BIG thanks to JAN and PA Bear!!

I read Jan's reply before I downloaded PA Bear's--and followed her instructions-- but I had to remove the "?" marks after .dll.

What are the "?" marks for Jan?

Sorry for the confusion.....that's a good question, and I really don't know. It's really a puzzlement, as they are not in the original text, I don't see them here on my end, but, for some reason they keep getting in there now and then when it is posted. I have not been able to figure out why.

After registering the .dlls and rebooting; IE is finally working correctly!
Why did this malfunction occur, what could cause this problem?
In any case THANKS SO MUCH, both of you two.
StanfordLYNX

You're very welcome! Glad to hear you were able to resolve your problem.
Good job!

Thank you very much for posting back and letting us know what worked for you, and for the benefit of other readers who might have a similar problem.

Jan :)
