Hi- Running Windows ME. I just want to download a copy of IE. I can find the Service Packs, but I can't find a copy of the program. Can anyone tell me where to find the program? Thanks. -h

You should explain a bit more.

What version of IE do you want to download?

Why do you want to download it? Describe any problem in detail with complete error messages.

IE6: <http://www.microsoft.com/windows/ie>

IE6 SP1 CD:
