>I have a odd problem with IE6. When I click on a link in
a email or

>web page to open a new IE6 window it opens in a small
window (2 inches

>by 2 inches) and I have to click on the button to make it
full screen.

>If I use the start menu or File/New Window option in a IE6
window it

>does open full screen though. What could be causing this
problem

>since it's obviously very annoying.
