Hi,

First, be sure to disable your antivirus program when installing IE.

Then, see this article:

303399 – You Cannot Finish Installing or Upgrading Internet Explorer

<http://support.microsoft.com/?kbid=303399>

You don't mention your OS. If it's WinME, see the post by Zee (oops) in this thread:

<http://snipurl.com/ie55uninstall>

Hope this helps,

Don
