G'day

My IE6 on XP won't download from ftp servers – at all.

I found this info:

<http://support.microsoft.com/default.aspx?scid=kb:en-us:816037>

I had already installed the latest Security Patch for Internet Explorer (MS04-004) via Windows Update.

I'm now trying to find the "supported hotfix is now available from Microsoft."

Can anyone help please?
