Hi Group,

Is there a limit on the size of the dbx files or a limit on how many e-mails you can you in your inbox folder? I keep up to 8 months worth of incoming e-mails (about 5,000) in the inbox folder and some sub-folders. Last night I opened OE, it took longer than usual to load the inbox folder and I noticed I was missing the most recent e-mails, about 3 weeks worth of e-mails. Has any one else experienced the same problem?

Thanks
Marco
