Email them and tell them to reply to your email. They may be using the wrong address, and if they reply, then they will be using the correct one.

Otherwise, you need to contact Comcast and ask them.

When someone tries to send me an email, it gives them this error: 204.127.225.26 does not like recipient.

Remote host said: 551 not our customer

Giving up on 204.127.225.26.

How do I fix this problem?
