As this has nothing specifically to do with MCE, why don't you post this question in a more appropriate newgroup?

You might get more answers.

Hi

i know. but i need the general information about the set top box, not for a particular set top box.

Doug Knox MS-MVP wrote:

Re: Set top box

Considering the number of manufacturer's, models, etc., it would be extremely difficult to answer such a general question.

Hi everyone

i need information about set top box. What is the architecture?? How it works?? What are the different I/O's that can be attached to it?? and how these I/O's are mapped to the hardware?? Please its very urgent.

TIA
