Hi Doug,

I checked Terminal Services and its already set to STARTED and MANUAL  
i went

ahead and changed it to automatic but i'm still having the same problem in  
fact i just noticed that the problem exists if i just log off my user i dont  
necesarrily have to shut the pc down as soon as i log back in the fast user  
switching option is again disabled... it however does not disables itself if  
i switch user only when i log off...

like i mentioned before it seems that for some reason that particular  
setting isnt being saved algon with everything else...

any other ideas?

by the way thanks for your help...

Re: Fast User switching option disables at startup

enrique

"Doug Knox MS-MVP" wrote:

Additionally, when this happens, click Start, Run and enter SERVICES.MSC Look in the right pane for Terminal Services. This service should be set to Started and Manual. If not, double click it and change the startup type and start the service. You can also set it to Automatic startup, if desired. It won't hurt anything.

Hi Doug,

AllowMultipleTSSessions is set to  
0x00000001(1)  
LogonType is also set to 0x00000001(1)

Re: Fast User switching option disables at startup

is this ok?

"Doug Knox MS-MVP" wrote:

Click Start, Run and enter  
REGEDIT Go to:

HKEY\_LOCAL\_MACHINE\SOFTWARE\Microsoft\Windows  
NT\CurrentVersion\Winlogon

In the right pane, locate  
AllowMultipleTSSessions  
and LogonType. Both of  
these values should be set to  
1.

Hi, i need  
some help, i  
am using a  
WMCE PC  
and an xbox  
as an  
extender,  
the  
probelm i

Re: Fast User switching option disables at startup

am having  
is that  
whenever i  
restart my  
pc the fast  
user  
switching  
option is  
disabled  
when  
windows  
starts and i  
have to  
manually go  
into the  
control  
panel and  
re-enable  
it.

for some  
reason  
windows is  
not saving  
that setting  
does anyone  
know what i  
can do to  
correct this?
