My decoder is Sonic CM(R) DS VideoDecoder version 4.0.0.1. Regarding video card and video card drivers, I'm not sure – where would I find that? Thanks

Hi. I've just been having the same problem. I've run the Windows XP Video Decoder Checkup, which tells me that my decoder is MCE compatible, but

not

MP10. Any ideas? Thanks

Do you have a DVD decoder installed that will work with  
MCE

with digital copyright protection also  
appears. Any idea how to fix?  
Thanks
