I was hoping that this DST patch would fix the existing problems rather than add new ones.

I don't know if it's been discussed before, but I noticed the problem in October when we did the last time change.

I have a recording from midnight to 8:00 am every night.

After the time change, I would start Media Centre at some point between 11:00 pm and midnight, and it would tell me that I couldn't change the channel because Media Centre was recording!

So I had to trick it into letting me watch The Daily Show.

Does anyone know if this has been noticed by others/reported/fixed?

.
