Is your Burner designed to burn BR or HD DVDs or it is just a normal DVD burner for use only with standard DVD formats?

"hdvme.com" <hdvme.com@xxxxxxxxxxxxxxxxxxxxxxxxxxxxx> wrote in message <news:63C29E83-8421-483A-8CAA-7B34420C1FC6@xxxxxxxxxxxxxxxxxxxxx>

I have a problem with my computer and Duo BluRay/HD-DVD players not recognizing my burned DVD. I have a Sony HDR SR1 camcorder 1440x1080i and it uses AVCHD software. My HP a1646x media center can burn the hd-dvd or avchd to dvd but then I can't play it. Also, the hd-dvd movie burned onto the dvd-rw (memorex single layer) doesn't show any KB/data through Windows Explorer. I was directed over to this blog, any HOTFIXES?????????
Thanks,
Glenn
