I concur with Jorge, start with my book (Active Directory Third Edition), then if you want scripting info move into O'Reilly's Active Directory Cookbook, and then if you have a thirst for even deeper info go into Inside Active Directory Second Edition from Sakari Kouti.

I recommend starting with mine because it is a little more concept oriented than Sakari's but I highly recommend Sakari's, I have it and was also actually a Tech Reviewer for it.

two books I would recommend:
<http://www.joeware.net/win/ad3e.htm>
<http://www.kouti.com/>

this will certainly upgrade your brain on AD knowledge! ;-)
