Recieved bunch of errors. Below are the errors. I am probably doing it wrong. Thanks again for your help, as you can tell I am new to scripting.

```
C:\>dhcptest.bat
```

```
C:\>'=====
'" is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>' Run DHCP EXP
'" is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>'=====
'" is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>set oFs = createobject("scripting.filesystemobject")
```

```
C:\>set shell = createobject("wscript.shell")
```

```
C:\>set net = createobject("wscript.network")
```

```
C:\>'on error resume next
'on' is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>datafile = "\\megaslowtron\DHCP\DCs.txt"
'datafile' is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>logfile = "C:\DHCP\Ex-DHCP-Log.txt"
'logfile' is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>output = "C:\DHCP\"
'output' is not recognized as an internal or external command,
```

Re: All DHCP Servers Info HELP!

operable program or batch file.

```
C:\>set svrlist = oFs.opentextfile(datafile, 1)
```

```
C:\>set exlog = oFs.createtextfile(logfile)
```

```
C:\>dim svr, svrIP,ProcID
'dim' is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>'=====
'" is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>function ex()
'function' is not recognized as an internal or external command,
operable program or batch file.
```

```
C:\>Set objWMIService =
GetObject("winmgmts:{impersonationLevel=impersonate}!\\"
```

& was unexpected at this time.

```
C:\>& svr & "\root\cimv2:Win32_Process")
```

.
