It is documented in MSDN right here:

<http://msdn2.microsoft.com/en-us/library/ms676902.aspx>

Hi there,

I want to display the employeeID attribute on the AD Users and Computers  
and  
be able to modify the value. Does anyone know how to do that? I have  
done  
some research, but was unable to find any.

Thanks a lot.  
Richard Poon
