Hi

My name is Firdosh Bhathena and I am a Technical Recruiter with Altek Information Technology Inc. We are looking for a candidate to fill the Active Directory Specialist position in Gaithersburg MD for our client Marriott International. This is a long term contract position working for one of our direct clients.

Attached is the job description for your reference, please review the job description and let me know if you are interested.

Job Description:

*****WE ARE LOOKING FOR AN ENGINEER AS THIS POSITION IS NOT GEARED TOWARDS AN ADMINISTRATOR*****

Experience:

- Significant experience Administering Active Directory, with very large, multi-domained networks.
- Significant experience Programming custom Maintenance/Migration/Disaster Recovery Scripts and Tools for Active Directory.

Core Skills:

- VBScript (core language)
- ADSI (Active Directory Services Interface, the primary API)
- Automation of windows 2000 AD functions (user populations, group/domain maintenance, bulk loading, DR)
- Exchange (Scripting, troubleshooting, integration)
- Knowledge of Meta directory structure and JNDI scripting
- LDAP protocol (operations and syntax) (Non-proprietary protocol)
- Kerberos (Architecture, understanding)

Please call me when you can to discuss this position in further

Active Directory Specialist position available in Gaithersburg MD

details and email me a word copy of your resume at the earliest .
