Hi Fer,

The only issue we've seen with these specific errors on a Cluster, were discovered that the issue was being caused by 3rd party application called Veritas Volume Manager 4.2 that is not support by Veritas running on a Windows 2003 R2 server.

I installed a File Server Cluster using Win 2003 R2. After configured

Quotas,

I rebooted the server and then open FSRM. When trying to access Quota Management to administer them, I received the error: File Server Resource Manager. "An unexpected error has occurred. Please check Application log

for

more information"  
Event Viewer reports:

Re: 2003 R2 FSRM error

Event Type: Error

User: N/A  
Computer: BCFLS01  
Description:  
An unexpected error occurred in the File Server Resource Manager MMC

snap-in

at Microsoft.Storage.SrmMmc.QuotaDataCache.Enumerate(RemoteManager  
remoteManager, SrmDataCacheEnumEventHandler EventHandler, Int32 BatchSize)  
at

Microsoft.Storage.SrmMmc.QuotasDisplayArea.EnumerateItemsIntoListView()

Exception from HRESULT: 0x80045316  
at Microsoft.Storage.ISrmQuotaManager.EnumQuotas(String strPath)  
at Microsoft.Storage.SrmMmc.QuotaDataCache.Enumerate(RemoteManager  
remoteManager, SrmDataCacheEnumEventHandler EventHandler, Int32 BatchSize)

Could anyone help me?  
Thanks in advance.

Fer.
