Hello Pegasus ,

Thank you for your correction! :-)

Have a nice weekend!

Best Regards,

Jason Tan

| I suspect you wanted to write "Do not multi-post" instead of
| "Do not cross-post".

| With multi-posting, the OP posts his question in several newsgroups
| independently. Respondents in one newsgroup cannot see responses
| from other newsgroups. This is wasteful because it leads to
| duplication of effort.

| With cross-posting, the OP places several newsgroups into his
| address field, thus making the post visible to two or more newsgroups.
| Respondents in one newsgroup will see all the other responses.

| There is nothing wrong with cross-posting when used in moderation!
