Hello JFB,

Is it on the same site and how is DNS configured on both DC's?

Best regards

Meinolf Weber (Myweb)

Thanks for you reply.  
Yes the rest of the test is ok. My main DC is ok too.  
This is the second DC.  
I didn't change anything on the network.  
Rgds  
JFB

Hello JFB,

Is something changed in the network before? The rest of dcdiag is ok?

Best regards

Meinolf Weber (Myweb)

Hi all,  
This morning my dcdiag command show this error  
Starting test: systemlog  
An Error Event occured. EventID: 0x00000457  
Time Generated: 08/24/2007 08:41:46  
(Event String could not be retrieved)  
An Error Event occured. EventID: 0x00000457

Re: dcdiag error

Time Generated: 08/24/2007 08:41:48

(Event String could not be retrieved)

..... myDC failed test systemlog

Anybody can help me with this? or explain to me the error.

Tks

JFB
