Hello stjoe5373@xxxxxxxxxxxxxxxxx,

Use WSUS 3, it is free and works great:

<http://technet.microsoft.com/en-us/wsus/default.aspx>

Best regards

Meinolf Weber

Hi,

I have a 2003 Domain using Server 2003 Standard, almost XP Pro across the

board, as far as updates go, do have

to go to each computer and log on with an Admin account to install the updates. I don't have local or domain admin permissions

for the end users.

Thanks Craig
