Hi Steve,

Sorry for the mistake.

As far as I know, regarding the article Q246535 – Upgrade of Subordinate Certificate Authority from Windows NT 4.0, the Basic Constraints field should be set and a renewal must be performed.

I recommend that you post your questions to these groups for more information..

microsoft.public.win2000.security
microsoft.public.security

Have a nice day!

Regards,
Bob Qin
