-

Please tell me where in the manual that applies to what I'm trying to do.

All of my users are already in the same domain, I just want to move the MyDocuments and Favorites Folders from user profiles on one machine to another where the users have not logged in yet.

Thanks,

""Ken Zhao [MSFT]"" <v-kzhao@xxxxxxxxxxxxxxxxxxxxxxxx> wrote in message news:h8EUP0fvHHA.2148@xxxxxxxxxxxxxxxxxxxxxxxx

Hi Scott,

ADMT v3 Migration Guide

<http://www.microsoft.com/downloads/details.aspx?familyid=d99ef770-3bbb-4b9e-a8bc-01e9f7ef7342&displaylang=en>

This guide explains how to use the Active Directory Migration Tool version 3 (ADMT v3) to restructure your operating environment.

Thanks & Regards,

Ken Zhao

| So I've installed ADMT, though I'm still not sure how this applies.
|
| I have Users in DomainA, on Terminal Server MachineA, with user profiles
| from DomainA.
| I want to get rid of MachineA and only use a new Terminal Server,
| MachineB.
| The users are still part of DomainA. though I want to copy the user
| profiles
| over to MachineB.
|
| More Specifically, the MyDocs and Desktop files, and Favorites. The other
| settings I'm not as concerned, as we are also switching from x86 to x64
| and
| from Office 2003 to Office 2007.
|
| Since the users have not logged into MachineB yet I cant copy the MyDocs
| and
| Desktop files, and Favorites to the profiles folders. I dont want to make
| alkl of them log in and then copy. I jsut want to point the Old IP to the
