Hello,

I want to redirect my web site on my internal LAN. I have registered site on active host. I want to redirect site on my live ip 202.x.x.x configured on my live windows 2003 server. that server also redirect on private ip 192.x.x.x of my another web site in LAN.

Both has installed IIS 6.0.

Please help me

Thanks in advance

Gunjan Desai
