First of all thank you very much for your prompt reply sir. Actually here its late night and I am at home and not in office. But I try to tell you this ipconfig..

On Server Machine it was

Local Area Network Ethernet Card

IP Address: 192.168.0.1

Subnetmask: 255.255.255.0

Default Gateway: 192.168.0.1

Worldcall Cable

DNS : worldcall.net.pk

IP Address: Any IP Assigned by the ISP

Subnetmask:255.255.255.0

Default Gateway: Also assigned Dynamically by ISP

On XP Workstation

DNS: worldcall.net.pk (I think it was before mshome but i dont know its an ISP name now)

IP Address: 192.168.0.xx

Subnetmask:255.255.255.0

Default Gateway: 192.168.0.1

Please see if you can help or else will post ipconfig /all for all the machines on Monday.

Thanks once again.

Regards
