

Re: Workstations can't browse the Internet

server as a router to route the traffic. check this link  
>>  
>> How to setup vpn on 2003 as router How to setup VPN and NAT on Windows Server 2003 as a router. Pre-requirement: ... Note: because this server is also a router it is better to enable NAT. ...  
>> [www.howtonetworking.com/VPN/2003vpn1.htm](http://www.howtonetworking.com/VPN/2003vpn1.htm)  
>>  
>> However, in the most cases, you don't need two NICs and enable NAT since you already have a router.
