In news:37AB0602-B661-4478-9066-74F3E6805D21@xxxxxxxxxxxxxxxx,
Leni1 <Leni1@xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx> stated, which I commented on below:

I have 3 2003 servers. They just started receiving w32time errors. I applied MS Hotfixes from article 830092 and 925340, but the error keeps coming back. How can I fix this?

Did you set the time service?

For Windows 2003, on the DC that holds the PDC Emulator Role (not the other DCs because this guy becomes the default time source for domain machines), run this:

```
net stop w32time
net time /setsntp:192.5.41.41
net start w32time
```

192.5.41.41 is one of the US Navy time sources.

MAKE sure that TCP 123 inbound and UDP 123 inbound are allowed in your firewall to the PDC Emulator.
