Well I know about port 25 I was speaking about MS in General.

Quote "I don't have Warm and Fuzzy Feelings about MS firewalls"

I didn't say MS is Crap. I stated an Opinion!

I'm entitled to an Opinion aren't I?

or isn't this a free country still..

You have the Quote "SBS Rocks", and I didn't Slam you for saying that?

What if I said MS SUCKS and APPLE ROCKS?

It's just an opinion, try not to take it personally...
