Jon,

I have to ask what you mean when you say that the user doesn't have access....

I am seeing these errors as well although they are no longer in the browser, they are in the ISA logs. I have no issues with acces to other sites, but my web site is trashed. See my other post if you have time.

"Jon Hicks [MSFT]" <a-jhicks@online.microsoft.com> wrote in message news:fOFuYFfMEHA.1456@cpmsftngxa10.phx.gbl...
