Hello Bart,

Make sure the following authentication methods are set in IIS.

Properties on the Default Web Site:

=====

Directory Security:

Authentication and Access Control:

-Enable Anonymous access

-Integrated Windows authentication

Virtual sub directories:

=====

*Backup:

Directory Security:

Authentication and Access Control:

-Integrated Windows authentication

*ClientHelp

Directory Security:

Authentication and Access Control:

-Enable Anonymous access

-Integrated Windows authentication

*ConnectComputer

Directory Security:

Authentication and Access Control:

-Enable Anonymous access

*Monitoring:

Directory Security:

Authentication and Access Control:

-Enable Anonymous access

microsoft.public.windows.server.sbs: RE: Server admin screen requires authentication

-Integrated Windows authentication

*Remote:

Directory Security:
Authentication and Access Control:
-Enable Anonymous access
-Integrated Windows authentication

Hope this helps!

Regards,
