

Adjunto 24k ! Error conexión remota 2003 SBS

Source:

<http://www.tech-archive.net/Archive/Windows/microsoft.public.windows.server.sbs/2005-03/1491.html>

From: David (NO_at_SPAM)

Date: 03/04/05

Date: Fri, 4 Mar 2005 20:55:04 +0100

ESPAÑOL

He habilitado la conexión remota de sbs 2003 para trabajadores que acceden remotamente a sus equipos.

Escenario:

Servidor 2003 SBS con 1 tarjeta de red, IP de clase C, conectada a switch

En el switch, los equipos cliente con IP de clase C y un 3Com Firewall/VNC, con una IP de clase C en el lado Lan

Lado wan del firewall con IP de clase A, usa como gateway un router ADSL de telefonica.

Habilitadas NAT de 443 (https) y 3389 (ts) a ip del servidor.

Conecto a <https://ippublica/remote> y llego al servidor, me identifico y ok, accedo correctamente a outlook web access, hasta aqui ok.

Al intentar conectar a un escritorio cualquiera me da el error de la imagen capturada.

La conexión directa de TS no funciona bien.

Internamente desde Lan funciona todo a las 1000 maravillas.

Problemas del firewall ?

Problemas de NAT?

Saludos

David

ENGLISH

I have install the remote connection of sbs 2003 for workers who connect remotely to their computer.

Scene:

Server 2003 SBS with 1 network card, IP of class C, connected to switch.

In switch, the computer clients with IP of class C and 3Com Firewall/VNC, with an IP of class C in side LAN. Side wan of firewall with IP of class A , like gateway to DSL Sservice. I open NAT of 443 (https) and 3389 (ts) to IP of the server. I connect to <https://publicip/remote> and I arrive at the server, I identify and ok, I correctly access to outlook Web Access, ok.

When try to connect to a remote desktop I gives the error of the captured image. The direct connection of TS does not work well.

Internally from LAN everything works perfect. Problems of firewall? Problems of NAT?

Greetings
David
