Hi Dave,

Thank you for the post.

Actually, SQL Server SP4 can be applied to the SQL/MSDE instances on an SBS 2003 server. "Windows Small Business Server 2003" is a part of the supported Operating Systems list at:

Microsoft SQL Server 2000 Service Pack 4

<http://www.microsoft.com/downloads/details.aspx?familyid=8E2DFC8D-C20E-4446-99A9-B7F0213F8BC5&displaylang=en>

However, I suggest using SBS 2003 SP1 since you will get it soon, which includes SQL Server SP4; we install it for you and ensure all instances of MSDE, SQL, WMSDE etc, are patched.

For your information:

What's New for Windows Small Business Server with SP1
