Hi Javier,

Thanks for posting here.

For your description, I understand that you removed all users in WSS and even administrator account can not access the sharepoint administration site. If I am off base, please don't hesitate to let me know.

I. To resolve the issue, please retrieve these users' permission in Server management. Please follow the steps:

1. Open Server Management Console, locate Users node.
2. Click the user you want to retrieve permission and click Change User Permissions wizard to run.
3. Follow the wizard to retrieve the user permission.

After do that, please try to access the site. How about the result?

II. If it does not work, try to create a new administrator account with Add User Wizard. Try to access the site. How about the result?

III. If the issue persists, please send the related screen shot for further troubleshooting to mailbox: v-yanniw@xxxxxxxxxxxxxxxx

I am currently standing by for an update from you and would like to know how things are going on your end.

Have a nice day!

Best Regards,

Jenny Wu

RE: HELP Deleted all WSS Users

This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner.

You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
