Hi Palmer,

Thanks for your post.

>From the description, I understand that your issue is that when you try to reinstall the client application, you are asked of the installation files for IE6 and outlook 2003 SP1. If I'm off base, please let me know.

Actually, the outlook 2003 for the SBS has some difference with normal outlook 2003. So we can not use the web downloaded normal outlook 2003 SP1 for SBS.

To get the files, you can extract the SBS2003-KB885918-SP1-X86-ENU.EXE that is under the SBS03_SP1 in the second CD of the SBS SP1 discs.

To extract the SBS2003-KB885918-SP1-X86-ENU.EXE without starting the installation program:

1. Type "path\filename /x"(without quotation marks) at a command prompt.
2. In the Choose Directory For Extracted Files box, type the full path of the folder into which you want to extract the files.

NOTE: Do not extract the files into the %SystemRoot% or %SystemRoot%\System32 folder.

3. Click OK, and then click OK.

Note: we can also use Winzip or WinRar to extract files from the service pack file.

Then, check the extracted folder, you can find the file office2003_sp1.msp under \cd4\sbs\clientapps\outlook11_sp1

As for the IE installation files, you can insert the disc 3 of the SBS installation CDs, locate to SBS\CLIENTAPPS\IE6\.

RE: Client App Outlook 2003 SP1?

If there is anything else that I can do for you, please feel free to contact me, and I will be happy to help!

Best regards,

Jerry Zhao (MSFT)

=====

This newsgroup only focuses on SBS technical issues. If you have issues regarding other Microsoft products, you'd better post in the corresponding newsgroups so that they can be resolved in an efficient and timely manner.

You can locate the newsgroup here:

<http://www.microsoft.com/communities/newsgroups/en-us/default.aspx>

When opening a new thread via the web interface, we recommend you check the "Notify me of replies" box to receive e-mail notifications when there are any updates in your thread. When responding to posts via your newsreader, please "Reply to Group" so that others may learn and benefit from your issue.

Microsoft engineers can only focus on one issue per thread. Although we provide other information for your reference, we recommend you post different incidents in different threads to keep the thread clean. In doing so, it will ensure your issues are resolved in a timely manner.

For urgent issues, you may want to contact Microsoft CSS directly. Please check <http://support.microsoft.com> for regional support phone numbers.

Any input or comments in this thread are highly appreciated.
